EXPERIENCE

Fiverr, Salem - Junior Front-End Developer (UI)

April 2024 - Present

- Collaborated closely with stakeholders to analyze project requirements, ensuring alignment with UI/UX objectives and user needs.
- Designed and developed innovative UI/UX concepts and prototypes, refining designs based on stakeholder feedback to achieve optimal user interaction.
- Conducted thorough research on UI trends to guide design choices and anticipate user expectations.
- Created visually compelling front-end assets for diverse projects, including responsive websites, web applications, and mobile interfaces, adhering to design principles and performance standards.

Fiverr, Salem - Graphics Designer & 3D Modelling

February 2023 – March 2024

- Led the creation and conceptualisation of visually appealing assets for diverse projects, including logos, brochures, websites, and social media graphics.
- Produced detailed 3D models and visualisations using software like AutoCAD and Blender, enhancing project communication and understanding.
- Partnered closely with clients to understand their design requirements and preferences, ensuring alignment with their brand identity and objectives.
- Developed and presented innovative design concepts and mock-ups, incorporating feedback and revisions to achieve final approval.

EDUCATION

Jairam Arts and Science College, Salem – BCA

June 2019 - July 2022

Bachelor Degree in Computer Applications (CGPA-6.8).

PROJECTS

Responsive Portfolio Website

Developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase my UI/UX design, front-end development, and graphic design projects. The site features an intuitive layout, smooth navigation, and optimised performance across devices, reflecting my skills in modern web technologies.

Portfolio [https://rajusramki.github.io/Personal-Portfolio/]

Graphic Design & 3D Modelling Project: Prime Builders | January 2024 - February 2024

- Produced detailed 3D building models and visualisations for Prime Builders, facilitating client presentations and approvals.
- Utilised AutoCAD and Blender to create realistic renderings, enhancing project communication and understanding.
- Generated 3D architectural models and renderings using A Blender for Prime Builders, enhancing project presentations and securing approvals.
